

Project Submission

Create & Improve a High-Fidelity Design: Final Project

For this project, you'll take the clickable Prototype you created in your midterm and improve the accessibility of your design. You'll then iterate on your design based on Data & KPIs. Finally, you'll prepare your Designs for engineering Handoff.

Project Files

You will continue from your work for the midterm project and improve and iterate on that design.

Rubric

Your project will be evaluated by a Udacity code reviewer according to the Final: Create & Improve a High-Fidelity Design [project rubric](#). Please make sure to re-review the rubric for detailed project requirements prior to submission.

Note that you must include a link to your midterm submission as part of this

Submission

Once you've met all of the rubric requirements, you can submit your project as a zip file of your PDFs, along with the links to the documents in the Submission Details/Notes section, with the submission button on this page.
